

Medical Assistant/Patient Services Representative for Pediatric and Adolescent Care Clinic located in Laurel Heights, SF

UCSF Benioff Children's Physicians (UBCP) is a multispecialty physician foundation, and an associated clinically integrated network. Our primary goal is to foster physician collaboration to deliver the most advanced maternal and pediatric care throughout Northern California and beyond. We have Pediatric and Adolescent Care, After Hours Care, and Maternal-Fetal Medicine clinics located throughout the San Francisco Bay area.

Under direct supervision of the Care Center Supervisor, this position provides clinical support for patients and physicians in the practice by performing a variety of front office and back office, patient-related tasks, and ensuring smooth patient and work flows within the department.

MAJOR JOB DUTIES AND RESPONSIBILITIES:

The incumbent must possess exceptional public relation/customer service skills and be able to communicate with patients and physicians in an effective manner. Responsibilities are to identify the needs of the caller and execute a plan to meet the needs for registration, scheduling, billing/claims inequities, My Kids Chart support, and general questions. In addition to being able to assist in resolving issues and improving quality of care, to ensure necessary authorizations are obtained prior to patient visits, to check-in and check-out patients, to post payments in real time, to update patient demographics, and to troubleshoot any billing problems that may arise.

I. Service Standards: Demonstrated ability to remain professional, even when working through difficult situations, support the vision of the Care Center and the core values of UCSF Benioff Children's Physicians.

II. Role Delineation

- Manages rooming and patient flow, including pre-visit preparation, assisting with the patient visit, and post-visit duties.
- Escorts patient to the exam room within 5 minutes of his/her appointment time or within 5 minutes of registration time if the patient arrives late. Follows all other rooming standards as established by UBCP.
- Assists the clinician as necessary as a team member when necessary.
- Employs lean techniques to support smooth patient work flows.

- Notifies patient of delays in accordance with UBCP standards, giving him/her the option of rescheduling.
- Informs provider of schedule changes that impact patient flow.
- Prepares patients for appropriate exams/procedures by reviewing EHR (Electronic Health Record) for health maintenance, disease management, overdue or due-soon services and pends orders, when appropriate.
- Gathers appropriate documents and signatures necessary to assist the Clinician in making treatment decisions, i.e. immunization consent etc.
- Ensures that exam rooms are clean, stocked and appropriately set up each day prior to rooming patients.
- Assists in patient education by providing informational pamphlets and after care instructions, and/or after visit summary as instructed by the Clinician or according to UBCP Policy.
- Refers care outside of the Medical Assistant position to the appropriate licensed personnel.
- Assists Clinician with EHR In-Basket management for prescription refills results, authorizations/referrals and non-clinical secure e-messages in accordance with UBCP standards.
- Follows UBCP policies and procedures for managing patient and pharmacy callbacks in a timely manner.
- Receives and records lab/radiological test results (may include outside medical records) via telephone or computer and ensures that those results and related reports are with the patient's medical record at the time of the patient's visit.
- May communicate normal test results only to the patient upon the direction of the Clinician.
- Relays Clinician instructions/orders to pharmacy (refills only without changes), patients and other entities via computer, phone, fax or email.

Clinical Support

- Washes or sanitizes hands per hand hygiene policy.
- Appropriately uses personal protective equipment (PPE).
- Maintains Sterile Technique at all times, as appropriate.
- Uses standard precautions, proper technique and always appropriately deploys safety devices on all syringes.
- Performs tests, and collects/prepares specimens per written order specific electronic order of the Clinician.
- Having completed all required training, performs 12 lead EKGs.
- Having completed all required training, correctly applies splints and braces as ordered by the Clinician.

Medication Management

- Follows the 6 rights of safe medication administration.

- May administer ordered medications via intradermal, subcutaneous or intramuscular injections, oral, sublingual, topical, vaginal, rectal or inhalation, with evidence of successful completion of formal competency verification.
- Follows Medical Assistant Medication Review workflow approved by UBCP.
- Obtains medication review. Notes allergies as well as verifies medications that the patient is currently using. May not independently add or delete a medication from the medication list.

Electronic Health Record (EHR) Documentation

What the Medical Assistant can enter into the record before the Clinician is in the room:

- Consistent with the UBCP policies and procedures, MAs must obtain and document in EHR or paper chart complete and accurate vital signs (minimum of three), including blood pressure, pulse, respirations, temperature, weight and height, appropriate for the patient's reason for visit, prior to the Clinician seeing the patient. Medications being taken and allergies will also be documented at each visit.
- Consistent with UCSF Benioff Children's Physicians UBCP policies and procedures, MAs may document exact quotes of patient's description of the chief complaint into the EHR. Those notes are to be reviewed and signed off by the Clinician.

What the Medical Assistant can enter into the record while the Clinician is in the room – also known as "Scribing"

- MAs can enter verbal dictation from the Clinician and patient into the EHR.

What types of orders can be pended

- A Medical Assistant may not execute any unsigned the orders until the Clinician has signed off in the EHR.

Care of Medical Equipment and Maintenance Responsibilities

- Cleans and sterilizes medical equipment as outlined by UBCP policies and procedures, manufacturer instructions, or by other accepted methods.
- Maintains daily/weekly/monthly logs as required by appropriate regulatory agencies and UBCP policies and procedures (i.e. autoclave, refrigerator/freezers, CLIA binder, etc)
- Ensures that medical supplies are maintained at appropriate inventory levels and are not expired.
- Maintains the safety and integrity of medical equipment, including inspecting the equipment for damage and/or the need for replacement of faulty equipment. Such faulty equipment must be reported to the appropriate person and removed from service.
- Ensures the proper disposal of biohazards and sharps waste.

- Ensures all medication cabinets are locked according to UBCP policies and procedures. Samples must be stored in a locked cabinet. For routine, non-controlled medicine storage, the medication must be stored in a lockable cabinet. Routing medications should be in an area not readily accessible to non-staff.

Independent Judgment
