

RN Risk Manager

UCSF Benioff Children's Physicians (UCBP) is a multispecialty physician foundation, and an associated clinically integrated network [CIN]. Our primary goal is to foster physician collaboration to deliver the most advanced pediatric care throughout Northern California and beyond. We have Pediatric, Ophthalmology, Adult Medicine, and Women's health clinics located throughout the San Francisco Bay area.

POSITION SUMMARY:

An RN Risk Manager Compliance role involves utilizing nursing expertise to identify, assess, and mitigate potential risks within a healthcare facility, ensuring compliance with all relevant regulations and industry standards by investigating incidents, analyzing data, developing preventative strategies, and educating staff on risk management practices, all while maintaining a strong focus on patient safety and legal adherence.

Responsibilities:

Include, but are not limited to collection of data; project development and management; adherence to time deadlines and commitments, presentations; and documentation of related processes and procedures. This is an on site position and telecommuting opportunities will be very limited. This position may assume day-to-day operational responsibilities as some projects may require a hands-on training or demonstrative approach. Some local travel will be required.

Key Responsibilities:

A. Risk Assessment and Identification:

Conduct thorough reviews of patient records, incident reports, and clinical practices to identify potential risks and areas for improvement.

B. Incident Investigation:

Investigate adverse events and near misses, collecting data to determine root causes and develop corrective actions.

C. Compliance Monitoring:

Ensure adherence to all applicable healthcare regulations, including HIPAA, Joint Commission standards, and state laws.

D. Data Analysis:

Analyze trends and patterns in incident data to identify high-risk areas and prioritize risk mitigation strategies.

E. Risk Mitigation Strategies:

Develop and implement preventive measures to reduce the likelihood of future incidents, including policy updates, staff training, and process improvements.

F. Reporting and Communication:

Regularly report risk management findings to leadership and relevant committees, including potential legal concerns.

G. Staff Education and Training:

Provide ongoing training to healthcare staff regarding risk management principles, incident reporting, and safety protocols.

H. Collaboration with Teams:

Work closely with clinical teams, quality improvement departments, and legal counsel to address risk issues and implement solutions.
